DETAILED ACTION

1. This action is in response to applicant's amendment filed on October 07, 2005. **Claims 1-12,14-21 and 27** are now pending in the present application.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the application is allowable for the reasons set forth on pages 6-13 of the Applicant's response filed on May 23, 2005.

Regarding claims 1 and 15, as noted therein, the claimed invention requires *inter alia* an IVR system comprising a plurality of general purpose blocks, each general purpose block being coupled to one other general purpose block and each block plays a prompt and is configurable to at least two configurations in which the first configuration sends a first signal without requiring input and the second configuration sends a signal according to a received input and wherein each block is coupled to a transfer block whereas the closest prior art Bjornberg and Hammarström only teach of connecting a plurality of general purpose blocks to each other and having some of the blocks play a prompt or being connected to a transfer block and thus does not teach or suggest each general purpose block plays a prompt and being connected to a transfer block and is configurable to at least two configurations in which the first configuration sends a first signal without requiring input and the second configuration sends a signal according to a received input.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
